CRYSTAL STONE

鈦宇岩·晶玉透光石系列

2023 NEW ARRIVAL

鈦宇岩

潤白通透 · 晶如玉石

CRYSTAL STONE  
鈦宇岩·晶玉透光石

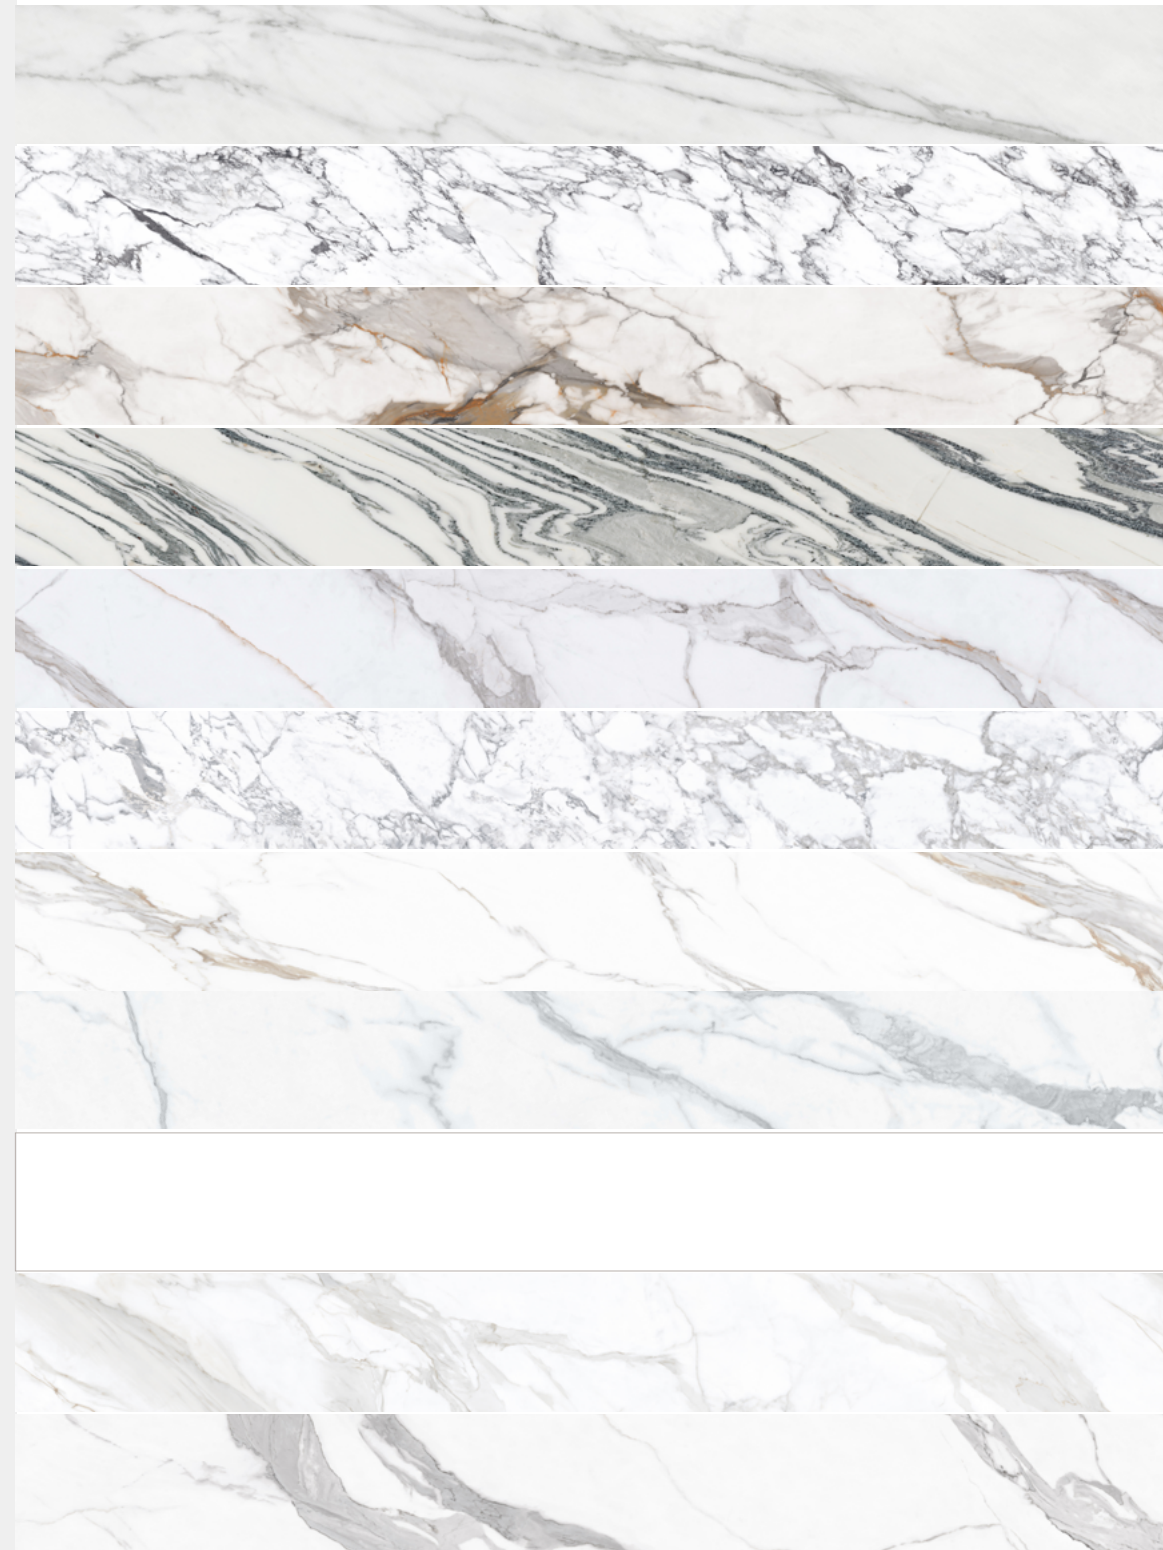

晶玉透光石是鈦宇岩於 2022 年打造的重磅新品，作為超越普通巖板的新材料，代表了鈦宇岩領先行業的研發技術和生產實力。晶玉透光石有著潤白通透的玉石質感，表裏如一的精細對紋，更加強悍的綜合性能以及更加優秀的加工性能，可立體加工的特性也打破了普通裝飾板材以往直來直去的應用，讓加工和應用有了更多可能。在產品規格上，我們做到了更具加工優勢的 1600x3200x12mm 規格，大規格足厚度加上更強的綜合性能，讓產品的加工和應用可以有更多發揮空間。同時我們賦予產品最珍貴的天然石花色紋理，且每個產品都有亮光和絲滑啞面兩個表面效果選項，充分滿足不同的客戶需求。

Crystal stone is a heavyweight new product created by Ti Cosmos in 2022. As an innovative material surpassing ordinary rock slabs, it represents Ti Cosmos's leading research and development technology and production capability in the industry. Crystal stone possesses a smooth and translucent texture reminiscent of fine jade. Its consistent and refined patterns, enhanced overall performance, and excellent processing capabilities set it apart from conventional decorative panels. Its three-dimensional processing characteristics break away from the traditional linear applications, opening up new possibilities for processing and applications.

In terms of product specifications, we have achieved a size of 1600x3200x12MM, which offers superior processing advantages. The larger size combined with greater strength in overall performance provides ample space for product processing and application. Additionally, we have endowed the product with the most exquisite natural stone patterns. Each product comes with the options of glossy and matte finishes, catering to diverse customer needs.

### 超級新材 強悍性能

superior new material & powerful performance

憑借表裏如一的石紋效果，在定製產品時可直接加工出品，不再用傳統的 45° 拼接方式，這樣不僅降低了安全隱患，還令整體樣式看起來更加美觀。

With the consistent stone pattern effect, the "Crystal stone" allows for direct processing and production of customized products, eliminating the need for traditional 45 ° jointing methods. This not only reduces safety risks but also enhances the overall aesthetics of the design.

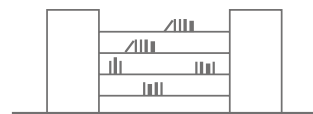

### 立體加工 應用無限

three-dimensional processing & limitless applications

作為超脫傳統板材的新型材料，「晶玉透光石」從原料到工藝全面升級，健康環保，更強悍的綜合性能，在應用過程中無懼環境變化及外力沖擊，不開裂，不滲色，不沾汙 ..... 日久彌新，潤白如初。

The "Crystal stone" is a new material that goes beyond traditional board materials. It has undergone a complete upgrade in terms of raw materials and processes, making it environmentally friendly and highly durable. It resists environmental changes and impacts, does not crack, stain, or get soiled. It maintains its initial moisturized and white appearance, staying fresh and pristine over time.

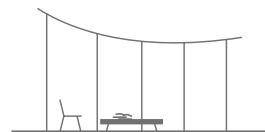

### 潤白通透 晶如玉石

White and transparent, jade texture

「晶玉透光石」系列新材採用 85° 白坯作為基底，乾淨無雜質，色澤純粹，由內而外呈現天然玉石般的光澤，整體極具潤白通透的質感。

The "Crystal stone" series of new materials adopts an 85° white base that is clean, free from impurities, and has a pure color. It showcases a natural jade-like luster from the inside out, presenting an overall texture that is highly moisturized, white, and translucent.

### 源自天然 表裏如一

Nature, Consistent

「晶玉透光石」實現全方位無死角精密對紋，整體花色銜接自然連貫。表面紋理更立體，層次感更強，形成渾然天成的石紋效果。

The "Crystal stone" achieves a precise and all-around fine pattern with no dead angles. The overall color patterns seamlessly connect in a natural and coherent manner. The surface texture is more three-dimensional, with a stronger sense of depth, creating a harmonious and natural stone pattern effect.
